

## AM-CF1B

The AM-CF1 is an Audio Collaboration System that will change your perception of web conferences. Imagine you are in a team conference and everyone gets clearly heard across different locations - no matter how passionately you discuss your ideas. The AM-CF1 with its integrated microphone array and soundbar turns any web conference in a natural conversation - clear as face-to-face. The integrated array of 8 steerable microphones automatically focuses on whoever is talking in real-time, allowing a natural conversation in web conferences.
