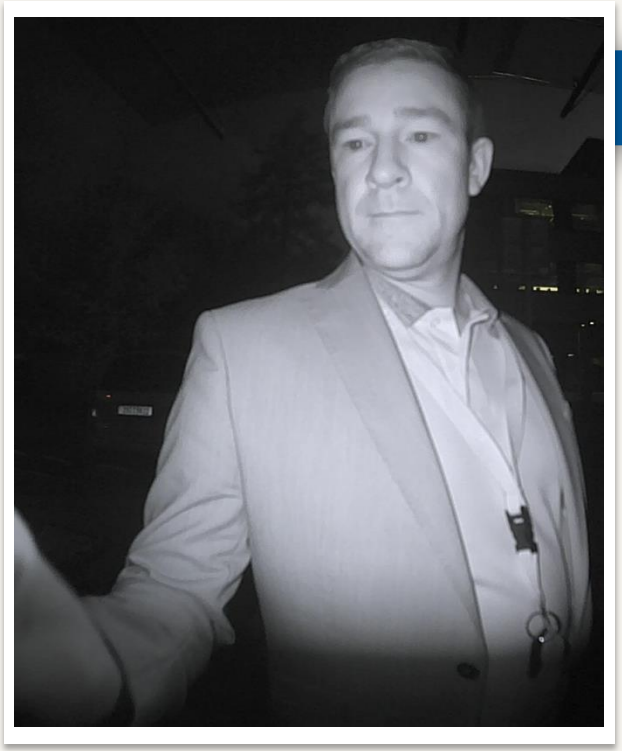
Ready to meet all requirements

- Choose your configuration of the required number of buttons, extending modules like Display Touch screen, Bluetooth and many others.

  All used components and materials are industry grade and will provide excellent performance in any conditions.



Bright picture even at night

- Hidden integrated camera is producing sharp image with HD resolution and night vision so you will see all visitors clearly even in a dark night.

Never Miss a Word

- High output power integrated amplifier together with HD audio codec will provide you crystal clear sound output with great intelligibility.

  Full duplex sound processing ensures that you will always hear your visitor even in loud environments.

Integration

An integration with other security systems in the building brings an extra value and security. It works with open standards like ONVIF, HTTP based APIs and modern streaming features to integrate with video surveillance, burglar alarms or home automation systems.
